

## **1. Creating a view**

```
CREATE VIEW view_name AS SELECT * FROM table_name;
```

## **2. Dropping the view**

```
DROP VIEW view_name;
```

## **3. Creating an index**

```
CREATE INDEX inedx_name ON TABLE table_name(column_name)  
AS 'org.apache.hadoop.hive ql.index.compact.CompactIndexHandler'  
WITH DEFERRED REBUILD;
```

## **4. Dropping an index**

```
DROP INDEX <index_name> ON <table_name>;
```
